

# Three reports, side by side

*Read one report at a time and each comment looks mild. Put the years side by side and you can see the same comment coming back, which is something a SENCo can act on.*

| YEAR | THE SENTENCE THAT REPEATS | WHERE IT APPEARS |
|------|---------------------------|------------------|
|      |                           |                  |
|      |                           |                  |
|      |                           |                  |
|      |                           |                  |

*For example: “Works well when fully supported.” “Easily distracted.” “Sometimes finds group work difficult.”*

THEN, TO THE CLASS TEACHER

*“I’ve noticed the same comment in each of the last three reports, and I’d like to meet the SENCo.”*
